

UCI Assessment Grant Program—Spring 2011 Proposal Abstracts

- **Victoria Basolo & Natalie Schonfeld, Student Support Services:**

We are seeking assessment funding to investigate the impacts of the Summer Start-Bridge program at UC Irvine over time. The research will use mixed methods to assess the relative impacts of the Bridge program on low-income, first generation students compared to students in the Summer Start program and two control groups, freshmen who did not participate in any summer courses at UCI and transfer students who did not participate in any summer courses at UCI.
